SUMMARY

Hello, my name is Lurry Putri Aprilia, a graduate of Informatics Engineering, currently working as an IT Programmer at ABHATI GROUP. I have internship experience at PT Telkom Indonesia as a Front-end Developer and Astra Insurance as a Web Admin Support, each for 6 months. I have strong skills in Python, PHP (particularly with CodeIgniter 4), Java, HTML, CSS, JavaScript (with React.js and TypeScript), and experience in database management using SQL and Oracle. My final project involved machine learning and CNN for predicting coffee crop yields. I am passionate about web and application development, database management, and software testing.

WORK EXPERIENCE
